

THROUGH TEACHER CPD

CONNECT is a training and professional development programme for businesses, community and public sector organisations, schools/Trusts, teams, and individuals.

The **CONNECT** programme offers dynamic, high impact and effective approaches to developing leadership practice, engaging communication, managing difficult conversations, understanding growth mindset and fear, enhancing presentation skills, team dynamics, digital pitching, emotional resilience & well-being and co-creation facilitation practice.

All skills that are the foundation of high performance, developing positive interpersonal relationships and an investment in a healthy, happy workforce and an authentically enabling and empowering culture.

Our unique practical approach combines practices from the creative arts sector with theory, research and practice from the social sciences, neuroscience and thought leadership in business development – optimising conditions for learning both during and after the direct delivery.

“It felt like a very safe space and people really joined in and committed themselves to the experience – it takes good facilitators for that to happen. The sessions were a good balance between personal and professional reflection and growth.”

CONNECT is delivered by Mortal Fools, a multi-award-winning theatre, drama, and creative learning charity using creative interventions and co-creation as a practice to support children and young people aged 7–25 years old to make sense of the contemporary world, to develop youth leadership skills, enhance employability and to support mental health and wellbeing.

The income generated by CONNECT, directly goes back into Mortal Fools work as a charity – so by booking us to run Teacher CPD, you are also supporting children and young people’s wellbeing and employability.
