

Happy Accidents

Start with a plain sheet of paper or spare cardboard. You can use tea, coffee, juice, or things like turmeric mixed with water for this exercise.

Let the page dry. You can use a hairdryer or dab with paper towels to speed it up. Once it's dried out you'll need a pencil or a pen.

Making sure your paper is on a protected surface, use a spoon to gently splash some of your tea across the page. Do this about 5 -10 times.

Draw using your imagination. What do you see when you see the splodges of colour? Imagine characters, plants and animals.
